

W612 Della Marcus Court, Kaukauna

20

- 2,467 sq. ft. ranch
- 3 Bedrooms
- 2.5 Bathrooms
- Decorated and furnished
- VHBA Green Member

With BerHoff Homes, energy efficiency, green and sustainable building, and a healthy environment are the

norm. We are also leading the way with Zero-net energy homes (no gas and electric bills) and LEED-H Certified Homes.

The functional kitchen, with FSC certified woods and healthy finishes for the cabinetry is surrounded by the dining area and great room to provide a focus on family events. The sun room overlooks the vast backyard and woods which provides a retreat for peace and relaxation.

As always from BerHoff Homes, this home significantly exceeds Wisconsin ENERGY STAR® Home and Wisconsin

Green Built Home standards for uncompromised energy savings and environmental sustainability. This home also meets the standards for the EPA Indoor airPLUS program for improved indoor air quality. A portion of this home's energy needs comes from solar electricity through Solar-Bach, a division of BerHoff Homes.

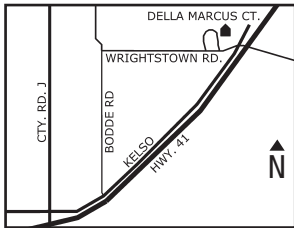

BerHoff Homes, LLC, "The Emerald of Green Builders," is delighted to share with you a home with both affordability and health in mind. We know you will have "A Remarkable Experience."
